INTERNATIONAL COURSE OF MEDICAL BIOMAGNETISM - LEVEL I

The Ecuadorian Center for Biomagnetism, invites you to the Medical Biomagnetism Course Level I. This Therapy was discovered by Dr. Issac Goiz Duran a Mexican Scientist. This course will be led by Dr. Jorge Mena, who is authorized to teach Biomagnetism by the Research Center of Biomagnetism in Mexico City.

Medical Biomagnetism uses a method that studies, detects, classifies, and corrects the pH (potential hydrogen) alterations of people by applying magnets of a certain force and polarity at specific locations of the body.

The purpose of this course is to train Medical Biomagnetism therapists that have the skill to diagnose and treat illnesses caused by viruses, bacteria, fungi, parasites and other dysfunctions using this technique.
